INTRODUCTION

Cuisinart takes the guesswork out of cooking rice. Now all you have to do is add liquid and rice, stir, cover, and press a switch. When rice is perfectly cooked, your Cuisinart™ Rice Cooker automatically reduces the temperature to keep rice warm until you're ready to eat. A stainless steel steaming tray is included to let you steam your cooked vegetables, fish, poultry, and specialties like dim sum!

As always, cleanup is quick, because all removable parts are dishwasher safe.

FEATURES AND BENEFITS

1. **Glass Lid w/ Stainless Steel Rim and Steam Vent:** See-through glass lid allows you to view the rice while the steam vent helps to prevent splattering. Stainless steel rim accents any kitchen.
2. **Steaming Tray:** Allows you to steam a variety of foods while the rice is cooking.
3. **Cooking Pot:** Nonstick coating prevents the rice from sticking to the pot.
4. **Stainless Steel Housing:** Durable stainless steel construction makes cleanup easy.
5. **Chrome-plated Handles:** Cool touch handles.
6. **“Cook” and “Warm” Indicator Switch:** LED lights on top of the switch indicate that the unit is in “Cook” or “Warm” mode.
7. **Measuring Cup:** Calibrated specifically for your Cuisinart™ Rice Cooker; allows you to measure the proper rice to water proportions with ease.
8. **Rice Paddle:** Allows you to fluff and scoop the rice out of the cooking pot and rice doesn't stick to the utensil.
9. **Retractable Cord Storage (not shown):** Convenient retractable cord storage.

IMPORTANT GUIDELINES

- This appliance generates steam. Do not operate uncovered.
- Do not use your Rice Cooker under wall hanging cabinets; the escaping steam could cause damage.
- Do not use metal utensils. Metal utensils will damage the nonstick finish on inner Rice Cooking pot.
- Do not plug in the Rice Cooker before rice and water have been added. Because most Rice Cookers do not have an “Off” setting, the unit will automatically be in “Warm” mode immediately after the unit is plugged in.

TIPS AND HINTS

- The Cuisinart™ Rice Cooker is a perfect appliance for a busy lifestyle and limited space. It will cook rices and grains perfectly with minimal fuss, taking up little counter space and leaving all your burners free for other tasks. Cleaning up the nonstick Rice Cooker bowl is quick and easy and there is virtually no maintenance.
- Your Rice Cooker can be used for more than just plain old rice. It is a simple way to cook pilafs. It is also wonderful for preparing risottos, polenta, oatmeal and other breakfast cereals that require constant stirring and attention. Simply turn unit on and walk away – it will automatically switch to “Warm” when ready to serve.
- You can use your Rice Cooker to cook a combination of rice, grains and legumes at the same time. Follow our recipes for ideas and suggested amounts to use – let your imagination be your guide.
- Rinsing/Washing Rice: Generally the rule is to “wash” or rinse imported rice and not to wash or rinse domestic (grown in U.S.) rices, as they have been vitamin enriched. To wash rice: place in a medium bowl and cover with water, swirl until the water appears chalky/cloudy and drain in a fine mesh strainer. Repeat until water is clear (or nearly clear) when rice is covered and swirled. Rice aficionados will even “wash” domestic rice, as it removes the starches and reduces stickiness. If you follow a well-balanced diet, then the loss of these vitamins will not be detrimental. Do not wash your rice in the Rice Cooker Bowl – if the outside of the bowl is wet when cooking, it may cause damage to your Rice Cooker.
- Some rices may call for a soaking period. This can be done in the Rice Cooker Bowl prior to cooking.
- When cooking rice, boil it until it has absorbed all the liquid. At this time it is not quite done. Rice benefits from a “boil-steam” method of cooking.

Allow your rice to rest on the "Warm" Setting for 5 to 10 minutes before serving for best results. Do not remove the cover and peek.

- After rice "rests" for 5 to 10 minutes, open Rice Cooker cover and stir rice gently with rice paddle or a wooden spoon. If rice is not ready to serve, re-cover and let stand on "Warm" until ready.
- The Rice Cooker will switch to the "Warm" cycle when it has finished cooking. At this time, you may stir in chopped raw vegetables such as green onions, slivered snow peas, shredded carrots, or even grape tomatoes to add texture to the dish – they will warm while the rice is resting, and if served in 5 to 10 minutes will retain their unique texture.
- The Rice Cooker can be used to prepare commercially packaged pilafs, rice and grain mixes. Some packages will come with generic Rice Cooker instructions, or they may be found on the websites of the manufacturers. If the package has a sautéing step, do it right in the Rice Cooker bowl. Turn on, add specified amount of butter or oil, add rice/vegetables/meat and sauté according to package instructions, with the lid on. Add liquid and continue to cook. If the rice is too wet, allow it to remain on "Warm" for 15 to 20 minutes before serving. If it is too chewy, add up to 1/4 cup more liquid and let stay on "Warm" until liquid is absorbed (about 15 to 20 minutes).
- When measuring rice with your Rice Cooker cup, level it off with a table knife or spatula as you would flour for baking.
- If desired, you may spray your Rice Cooker Bowl with nonstick cooking spray, but this step is not necessary, as it has a nonstick coating.
- When rice is placed in the Rice Cooking Bowl, level it off to a flat layer that covers the entire bottom of the bowl, to insure that it cooks evenly.
- The water you use for cooking rice should be the same water that you drink. If you do not like the taste of your tap water, use bottled or filtered water. The taste of the water will affect the taste of the rice.
- For best results, use cold water. Cooking times will vary depending on the temperature of the water being used.
- Liquids other than water may be used to cook rice. Use low-fat, low-sodium meat or vegetable stocks/broths. Fish stock or clam broth may be used for seafood flavored rice.
- One to two teaspoons of unsalted butter, olive, vegetable or nut oil will help keep grains of rice separate and prevent boiling over.
- If your recipe calls for salt, add and swirl in with the rice paddle or a wooden spoon after adding liquid – then level the rice as evenly as possible.
- The Rice Cooker can be used to steam vegetables, seafood and some meats while cooking the

rice. Use our recipes as a guide, then create your own combinations.

- When steaming vegetables, clean them and trim to similar size. Follow Vegetable Steaming Guide for steaming vegetables alone. To steam vegetables while preparing rice, use Vegetable Steaming Guide to time when to add vegetables in steaming tray to the Rice Cooker. Most vegetables can be added about 10 minutes before rice has finished cooking.
- When steaming meats such as poultry or sausage, cut all into small, similar sized pieces (such as "finger strips" or 1-inch slices). Arrange in a single layer in the steaming tray that has been sprayed with Cooking Spray.
- When steaming shrimp, scallops and other seafood, arrange in a single layer in the steaming tray that has been sprayed with Cooking Spray.
- When using your Rice Cooker, plug it in and arrange it on the counter away from the wall and not under hanging cabinets to prevent steam damage.
- The steam vent in the cover should always be placed facing the back of the Rice Cooker. Lift the lid from the back to the front to prevent steam burns.
- One cup of uncooked rice makes approximately three cups of cooked rice.
- 1 Rice Cooker Cup (filled to the top) = 3/4 Cup = 12 Tablespoons

COOKING CHARTS

Cooking Rice

Cooking times will vary with amount and temperature of cooking liquid. The simplest way to cook white rices is to place rice in Rice Cooking Bowl and add liquid to appropriate line marking (i.e. using the measuring cup provided, fill cooking pot with 2 cups rice. Then, add water to the 2 cup water marking inside the pot). Brown and specialty rices that require larger amounts of water proportional to rice should not be cooked in amounts larger than stated in the chart. All rice/grain is measured in the Rice Cooker Cup. All water/liquid is measured in a standard liquid measuring cup.

Steaming Vegetables, Poultry, Seafood or Hard Cooked Eggs

Place indicated amount of water into the Rice Cooking Bowl. The amount needed will vary according to the type of food being cooked. Arrange foods in a single layer in the steaming tray. Vegetables should be cut in similar sizes as indicated. Cooking times are approximate and will yield cooked but crisp/tender vegetables. Add more time for more tender/softer vegetables or cut back on time for crispier vegetables to taste.

Rice Cooker must be unplugged immediately after vegetables have finished cooking to prevent overcooking. If cooking vegetables over rice, use chart to determine approximately when to add steaming tray to Rice Cooker. Serve steamed vegetables immediately or plunge into ice water to stop cooking to use in salads and other cold preparations.

RECIPES

Your Rice Cooker comes with a 6-ounce (12 tablespoons or 3/4 of a standard 1-cup measure) measuring cup. All recipes in this Instruction & Recipe Book are written using the rice/grain/cereal measured with the Rice Cooker measuring cup. The liquid is measured with a traditional liquid measure (1 cup = 8 ounces = 16 tablespoons).

Only white rices can be cooked to the maximum amount possible in the Rice Cooker (4 Rice Cooker cups/8 Rice Cooker cups). Do not cook more than the suggested amounts of other rices on the cooking chart, as the amount of liquid needed to cook larger amounts will boil over.

Note: For all recipes, use the included Rice Cooker Measure Cup to measure the rice or grain. Use a standard liquid measure cup to measure all liquids. (This keeps your Rice Cooker Measure Cup dry for measuring dry rice/grain.)

The Rice Cooker Measure Cup = 3/4 cup standard dry measure or 12 tablespoons.

- 1/4 teaspoon salt
- 3 tablespoons raisins

Insert Rice Cooker Bowl In Cuisinart™ Rice Cooker. Place oatmeal, water, cinnamon and salt in Rice Cooker Bowl; stir. Sprinkle raisins over top. Cover and turn on; cooking time will be about 12-18 minutes. When unit switches to “Warm”, Cinnamon Raisin Oatmeal is ready to serve, or it may be kept on “Warm”. Stir before serving. Serve hot as is, or sprinkle with a sweetener such as brown sugar, honey or maple syrup. A dollop of yogurt (plain or vanilla) or milk to taste may be added.

Note: Other dried fruits may be substituted for the raisins. Try dried cherries, cranberries or blueberries, slivered dried apricots or plums or chopped dried apples.

You may make this oatmeal using Irish Oats. Combine 1 Rice Cooker cup of Irish Oats with 3 (standard liquid measure) cups water in a bowl; cover, refrigerate and soak overnight. Transfer the soaked oatmeal and liquid to the Rice Cooker Bowl. Stir in cinnamon, salt and raisins. Turn on. When unit switches to “Warm”, the Irish Oatmeal is done. Stir before serving.

WARRANTY

Three-Year Limited Warranty

This warranty supersedes all previous warranties on Cuisinart™ Rice Cooker. This warranty is available to consumers only. You are a consumer if you own a Cuisinart™ Rice Cooker that was purchased at retail for personal, family, or household use. Except as otherwise required under applicable state law, this warranty is not available to retailers or other commercial purchasers or owners. We warrant that your Cuisinart™ Rice Cooker will be free of defects in material or workmanship under normal home use for three years from the date of original purchase. We suggest that you complete and return the enclosed product registration card promptly to facilitate verification of the date of original purchase. However, return of this product registration card does not eliminate the need for the consumer to maintain the original proof of purchase in order to obtain the warranty benefits. In the event that you do not have proof of purchase date, the purchase date for purposes of this warranty will be the date of manufacture.

If your Rice Cooker should prove to be defective within the warranty period, we will repair it (or, if we think it necessary, replace it) without charge to you. To obtain warranty service, please call our Consumer Service Center toll-free at 1-800-726-0190, or write to:

Cuisinart
150 Milford Road
East Windsor, NJ 08520

To facilitate the speed and accuracy of your return, please enclose \$10.00 for shipping and handling of the product. Please also be sure to include a return address, daytime phone number, description of the product defect, product serial number (stamped on bottom of product base), and any other information pertinent to the product's return.

Please pay by check or money order. (California residents need only supply proof of purchase and should call 1-800-720-0190 for shipping instructions).

NOTE: For added protection and secure handling of any Cuisinart™ product that is being returned, we recommend you use a traceable, insured delivery service. Cuisinart cannot be held responsible for in-transit damage or for packages that are not delivered to us. Lost and/or damaged products are not covered under warranty.

Your Cuisinart™ Rice Cooker has been manufactured to strict specifications and has been designed for use with the Cuisinart™ Rice Cooker accessories and replacement parts. These warranties expressly exclude any defects or damages caused by accessories, replacement parts, or repair service other than those that have been authorized by Cuisinart. These warranties do not cover any damage caused by accident, misuse, shipment, or other than ordi-

nary household use. These warranties exclude all incidental or consequential damages. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the foregoing limitation may not apply to you.

California Residents Only

California law provides that for In-Warranty Service, California residents have the option of returning a non-conforming product (A) to the store where it was purchased or (B) to another retail store which sells Cuisinart products of the same type. The retail store shall then, according to its preferences, either repair the product, refer the consumer to an independent repair facility, replace the product, or refund the purchase price less the amount directly attributable to the consumer's prior usage of the product. If either of the above two options does not result in the appropriate relief to the consumer, the consumer may then take the product to an independent repair facility if service or repair can be economically accomplished.* Cuisinart and not the consumer will be responsible for the reasonable cost of such service, repair, replacement, or refund of nonconforming products under warranty.

California residents may also, according to their preference, return nonconforming products directly to Cuisinart for repair or, if necessary, replacement by calling our Consumer Service Center toll-free at 1-800-726-0190. Cuisinart will be responsible for the cost of the repair, replacement, and shipping and handling of such nonconforming products under warranty.

Before Returning Your Cuisinart Product

If you are experiencing problems with your Cuisinart product, we suggest that you call our Consumer Service Center at 1-800-726-0190 before returning the product for servicing. Often, our Consumer Service Representatives can help solve the problem without having the product serviced. If servicing is needed, a Representative can confirm whether the product is under warranty and direct you to the nearest service location.

*** Important:** If the nonconforming product is to be serviced by someone other than Cuisinart's Authorized Service Center, please remind the servicer to call our Consumer Service Center at 1-800-726-0190 to ensure that the problem is properly diagnosed, the product is serviced with the correct parts, and to ensure that the product is still under warranty.
