Caution

Read all instructions carefully before using this product.

- This appliance was constructed to process normal household quantities. Please remember to keep your Braun coffee grinder out of the reach of children.
- Before operating, check whether your voltage corresponds to the voltage printed on the top of the unit.
- Do not hold the motor part ① under running water or immerse it entirely in water.
- Never remove the transparent lid ② before the blades ⑤ have stopped rotating.
- Braun electric appliances meet applicable safety standards. Repairs or the replacement of the mains cord must only be done by authorised service personnel. Faulty, unqualified repair work may cause considerable hazards to the user.

Description

- ① Motor part with grinding area (maximum capacity 60 g of coffee beans)
- ② Transparent lid
- ③ On/off switch
- ④ Measuring calibration
- ⑤ Blades
- ⑥ Cord storage area

Grinding coffee

Take care not to overload the unit. Do not fill coffee beans beyond the brim of the unit (a). To start the coffee grinder (b), replace the transparent lid ② onto the motor part ①, and depress the on/off switch ③. To stop it, simply release the on/off switch.

As a general guide, the chart below provides suggested bean quantities and recommends grinding time:

Cups of coffee (125 ml)	Amount of beans (table-spoon)	Approx. grinding time (in seconds)
4	3	20
6	4½	23
8	5½	25
10	7	28
12	8½	30

It is recommended not to continue grinding for more than 30 seconds. Longer operation does not result in a finer grind but simply overheats the coffee resulting in loss of aroma. You will soon find your desired consistency of grind.

After grinding your coffee take off the transparent lid ② from the motor part ① and pour out the coffee grounds (c). For additional accuracy use the calibrations ④ on the side of the transparent lid.

Note: For optimal flavour, it is recommended to grind coffee beans immediately before brewing.

Cleaning

Always unplug the unit before cleaning. The transparent lid ② can be washed by hand; do not clean it in the dishwasher. The grinding area in the motor part ① should be cleaned with a small brush. Wipe the motor part ① with a damp cloth only.

Cord storage

The coffee grinder features a cord storage area ⑥ at the base of motor part ①. Excess cord may be wrapped around the base.

Subject to change without notice.

This product conforms to the European Directives EMC 89/336/EEC and Low Voltage 73/23/EEC.

At the end of the product's useful life, please dispose of it at appropriate collection points provided in your country.

Guarantee

We grant 2 years guarantee on the product commencing on the date of purchase. Within the guarantee period we will eliminate, free of charge, any defects in the appliance resulting from faults in materials or workmanship, either by repairing or replacing the complete appliance as we may choose.

This guarantee extends to every country where this appliance is supplied by Braun or its appointed distributor.

This guarantee does not cover: damage due to improper use, normal wear or use as well as defects that have a negligible effect on the value or operation of the appliance. The guarantee becomes void if repairs are undertaken by unauthorised persons and if original Braun parts are not used.

To obtain service within the guarantee period, hand in or send the complete appliance with your sales receipt to an authorised Braun Customer Service Centre.

For UK only:

This guarantee in no way affects your rights under statutory law.
