Description
① Motor block
② Spout
③ Juice container
④ Cone
⑤ Lid

Connecting
Connect your Braun Citromatic de luxe to alternating current (~) only and check whether your voltage corresponds to the voltage printed on the bottom of the unit.

How to extract juice with the Braun Citromatic de luxe
Connect the plug to an outlet. Take off the lid ⑤ and place a glass or other receptacle into the mould underneath the spout ②. The spout must be folded out downward.

Then press a halved citrus fruit against the cone ④: The motor will turn on automatically (a).

When lifting the fruit off the cone, the motor will turn off again.
After the juice you are extracting has flown into the receptacle, fold the spout ② up (b): That prevents dripping.

Cleaning
Before cleaning, always disconnect from the mains.
Lift out the cone ④ and the juice container ③. These parts may be washed in warm water and normal dishwashing liquids (c). Clean the motor block ① with a damp cloth only (d).

For thorough cleaning, the spout ② can be removed by pressing its two sides together and pulling it downwards (e).

Subject to change without notice.
